

REMARKS

Claims 47-92 are now pending in the present application. Reconsideration and allowance of the application and presently pending claims are respectfully requested in view of the foregoing remarks.

A. Objections to Drawings

Applicants have amended FIGS. 5 and 7 responsive to the Examiner's objections, as indicated above.

B. Official Notices in Office Action

The Examiner has taken Official Notice that "it is notoriously well known in the art for "client devices" and "server devices" to store "coloring information"."

According to MPEP 2144.03, "It would not be appropriate for the examiner to take official notice of facts without citing a prior art reference where the facts asserted to be well known are not capable of instant and unquestionable demonstration as being well-known." MPEP 2144.03 also states that "If such notice is taken, the basis for such reasoning must be set forth explicitly. The Examiner must provide specific factual findings predicated on sound technical and scientific reasoning to support his or her conclusion of common knowledge."

Applicants respectfully traverse the Examiner's Official Notices for at least the following reasons:

1. The facts sought to be established by the Official Notices are not capable of "instant and unquestionable demonstration as being well-known."
2. The bases for the Official Notices were not set forth explicitly.
3. The Examiner did not provide specific factual findings predicated on sound technical and scientific reasoning to support the conclusions of common knowledge.
4. The Examiner failed to cite documentary support for the Official Notices.

C. Claim Rejections and Objections

Claims 1-46 have been cancelled without prejudice, waiver, or disclaimer. Therefore, rejections of and objections to claims 1-46 are rendered moot. Applicants are not addressing the validity of all assertions made by the Examiner regarding claims 1-46 since the validity of such

assertions may not be relevant to the allowance of the newly presented claims 47-92. Therefore, Applicants should not be presumed to agree with any statements made by the Examiner regarding claims 1-46 unless otherwise specifically indicated by Applicants.
